

FOR IMMEDIATE RELEASE

Paris, France - April 20, 2023

**DJG Consulting places CFO for leading VC's Biotech and Medtech portfolio companies**

DJG Consulting, the Paris-based Recruitment and Executive Search firm, is proud to announce the successful placement of a Chief Financial Officer (CFO) for a collection of portfolio companies in the rapidly growing biotech and medtech sectors. The client, a prominent Venture Capital firm, is a major player in the European market with a strong focus on financing and supporting innovative healthcare startups.

The newly appointed CFO is an accomplished professional with extensive experience in management control, taxation, accounting, and internal auditing across various sectors, also proficient in multiple languages. Their skillset and experience will provide these burgeoning companies with the financial guidance and oversight necessary to navigate growth and ensure they maintain a competitive edge in the market.

The portfolio companies span from incubator stage to established firms. The addition of a seasoned CFO will help drive financial efficiency, strengthen internal controls, and optimize resource allocation, further positioning these companies for success in the rapidly evolving healthcare landscape.

David Greaves, Managing Director of DJG Consulting, took a personal interest in the search process, working closely with the lead consultant to ensure the best possible candidate was found. This placement marks a new milestone in DJG Consulting's relationship with the client, as it is the first time the firm has worked on a role specifically for portfolio companies.

**About DJG Consulting**
